

CERTIFICATION BOOT CAMP

Tackling the A+ certification with us here at MTC is an exciting choice for anyone aspiring to excel in the field of IT. We offer a course that pushes a comprehensive understanding of hardware and software technologies. This knowledge will boost career prospects and increase employability in the ever-evolving tech industry.

8 weeks of intense hands on training in a classroom with a certified, experienced instructor. Software simulations and test voucher are included with test preparation at the highest level.
