If your TB Skin Test comes back positive, we will need a copy of your results from the chest X-Ray. Covid vaccines are not mandatory but are required by some clinical training settings and future employers. Since students are entering the healthcare field, the program recommends having a covid vaccine. Please provide a copy of the vaccine card.
- **Drug Screenings are required for all students in Health Sciences Programs**, and a completely negative drug screen is required. Clinical settings affiliated with health science programs do not grant access to individuals with THC in their drug screen. Prescribed medical marijuana contains THC. Physician authorized use of medical marijuana is not acceptable to our clinical affiliates as it contains THC. In order to remain compliant with contractual requirements mandated in training agreements, students cannot be accepted into a health science program if they have THC in a drug screening, with or without a medical marijuana card.
