Basic skills requirements are determined by the Florida Department of Education and are identified for each career and technical program. Students who do not meet the literacy requirements necessary for program completion may be referred to remediation courses until the required basic skills in reading, mathematics and writing levels, as reflected by PERT test scores, are achieved. Remedial programs are available online at kahnacademy.org.

Post-Secondary Career & Technical Probation Policy

Students, who at the end of a grading period or course, fail to achieve at least the minimum acceptable standard (attendance and/or grade performance) established by a program, will be placed on probation. Students will remain on probation until the end of the course, or grading period. At that time, if satisfactory progress has not been made, the student may be dismissed from the program and will not be permitted to re-enroll in the same program for a minimum of one calendar year. Re-admitted students must meet the quantitative and qualitative requirements in order to re-establish satisfactory academic progress. Any student wishing to appeal a determination of unsatisfactory progress must follow the established grievance procedures. All appeals are final.

Externship

One of the major advantages of attending MTC is externship opportunities available through the career and technical programs. Externships allow students to gain practical work experience and academic credit at the same time. These unpaid, supervised programs of work and study involve students working in governmental, community service, or business settings within their discipline of study. The duration of externships varies depending on the program but allows students many opportunities to gain “real world experience” in an academic setting. Students must meet the program specific criteria prior to being approved for externship training. It is the student’s responsibility to ensure he/she has transportation, time, and materials necessary to participate in an externship. Students not meeting the criteria may not be allowed to participate in an externship and remain in the classroom setting for the entire program. In some cases, externships are required and not meeting the criteria for participation may lead to dismissal from the program. Please see your instructor for further details.

Certification of Completion Requirements

Marion Technical College and the Florida Department of Education have set forth certain requirements, which must be met before a certificate of completion can be granted. These requirements relate to state-established student performance objectives, program standards, basic skills requirements, and in some programs, the successful passing of certification examinations.

Occupational Completion Point (OCP) Certificates

Certificates may be awarded in career and technical programs with multiple OCP points. An occupational completion point is a set of competencies that qualify a person to enter an occupation that is linked to a career program. An OCP certificate may not be awarded for a terminal occupational completion point.

Certificates of Attendance

An attendance certificate is offered in some programs to students who have successfully completed a set of specific tasks but who have not yet completed an OCP or who have not met the basic skills requirement for completion.

Student Organizations & Activities

Students may participate in several organizations at MTC. These organizations are associated with the occupation the student is studying. Due to the close relationship between the activities of the organization and the training, participation may be helpful in future job placement. MTC encourages all students to participate in these activities.

SkillsUSA

SkillsUSA is a national organization for students enrolled in trade and industrial education classes. "America's New Professionals" can learn leadership and occupational skills through participation in club activities. Among the many programs organized by SkillsUSA are local, regional, state, and national contests in which students demonstrate the occupational and leadership skills they have learned in the shop and classroom.

National Technical Honor Society (NTHS)

The National Technical Honor Society recognizes outstanding student achievement in career and technical education. Thousands of schools and colleges throughout the U.S. and its territories have a chapter of the honor society on their campuses. These member schools agree that NTHS encourages higher scholastic achievement, cultivates a desire for personal excellence, and helps top students find success in today's highly competitive workplace.

Advisory Committee

The administration and staff believe that it is important to know the thoughts and ideas of the student body, school staff, and the community. Therefore, each is represented on Program Advisory Committees. These representatives serve in advisory roles of making suggestions, giving constructive criticism, and providing other information that will benefit the school.

Student Ambassador Council (SAC)

The mission of the Student Ambassador Council (SAC) is to provide Marion Technical College (MTC) students with representation, services and advocacy within the college. Student Ambassadors are vital to MTC in that they represent the school to prospective students and their families, to guests and in the community. They assist with a variety of programming during the academic year such as campus tours, open houses, expos, etc. Student Ambassadors must be able to communicate well with others and demonstrate a sincere desire to volunteer time and effort in helping welcome prospective students and guests to MTC.

Withdrawal must take place during the first five (5) days of class. If the student withdraws after the MTC withdrawal period, the student will receive a "W" on their transcript for the attempt in the course and will not receive any credits.
- A student may be administratively withdrawn from a program. This may happen if the student does not maintain MTC's academic, attendance, and behavioral requirements. The student will not receive credit for any class in which they have been administratively withdrawn.

Grading Procedure

- Students will earn high school credits for completed college courses. For every 150 hours of successful completion of a career program course, students will be awarded 1 credit towards high school graduation requirements. MTC transmits Career Dual Enrollment grades to the Marion County school district at the end of each semester. The grades received in the MTC program will remain on the student's permanent college transcript.

FINANCIAL AID SERVICES

Financial Aid is available to all eligible students, eligibility information may be obtained in the Financial Aid office. The office is open 10:00 am to 6:00 pm Monday through Thursday and on Fridays until 2:00 pm. Phone 352-671-7203.

The amount of financial aid is dependent upon financial need; therefore, the amount awarded may vary from student to student.

MTC's attendance policy and satisfactory academic progress must be maintained throughout the length of the program to remain eligible for Title IV Aid. Other financial aid programs may have additional requirements.

Title IV Aid is not available for programs less than 600 clock hours in length.

Financial Aid awards are contingent upon receipt of funds. Sources of financial aid include, but are not limited to:

- Federal Pell Grant (Title IV), does not require repayment if all criteria are met and maintained
- Veterans Educational Benefits – earned by U.S. Service Veterans for themselves or their family
- Marion Technical College Financial Aid
- Florida Student Assistant Grant - Continuing Education (FSAG- CE)
- Florida Bright Futures Scholarship Program
- Florida College Prepaid Program
- Local Scholarships
- Outside Agencies

A finalized FAFSA application and all supporting documentation must be received by the MTC Financial Aid office to document eligibility.

NOTE: MTC does not participate in student loan program.

Satisfactory Academic Progress (SAP)

Once enrolled; to continue receiving Title IV Aid, students must maintain satisfactory academic progress. This report is completed by the student's instructor when the student has reached the scheduled hours and weeks in his/her payment period.

Students are making Satisfactory Academic Progress (SAP) if they successfully complete their scheduled clock hours and weeks, achieve a specific cumulative grade evaluation (GPA), and do not exceed the maximum time limits to complete their course of study.

For students receiving a Pell Grant, the student's academic progress will be checked at the scheduled payment period which will vary by program. For programs less than one academic year progress will be checked when the student reaches the half-way point in hours and weeks. For programs lasting more than one year, SAP must be checked corresponding with the end of a payment period. No SAP is required prior to the first disbursement.

The Code of Federal Regulations, CFR 668.34, requires that schools establish satisfactory progress standards and policies for students applying for and receiving federal aid. In addition, this regulation requires that the Financial Aid office review all periods of a student's enrollment history to determine if a student is making SAP towards an educational objective.

The policy must include these three components:

- Grade requirements (qualitative),
- Hours attended and weeks elapsed (quantitative),
- Maximum Time Frame, students are allowed up to 150% of the scheduled clock hours to complete their program. Students are responsible for payment of tuition and fees for hours required in excess of 100% of the stated program hours.

Consequences of Failing SAP

Students who fail to meet the minimum cumulative GPA of 2.0 or program GPA and/or fail to complete within the properly calculated maximum time frame are given a warning. Students placed on a warning remain eligible for financial aid for one payment period. After the warning period and one payment period, students must meet the cumulative GPA, and the maximum time frame or financial aid will end. This includes the weeks of instruction time for that time period. The student will no longer be eligible for Title IV Aid. There will be no appeal process or probation.

Re-Establishing Financial Aid Eligibility

Students may regain financial aid eligibility with satisfactory academic progress after successfully completing the next payment period. The student is not eligible for aid during this payment period. Students who re-enter the same program more than a year later will be considered a new student.

Return to Title IV(R2T4) Policy

Students who withdraw or leave school before the program completion date, should contact the Financial Aid office before withdrawing to ensure a full understanding of the financial consequences of that decision. The Financial Aid office advisors will explain the policies governing a student withdraw and how they apply to your situation. For example, the federal government mandates that students who withdraw from all their classes may only keep the federal financial aid (Title IV funds) they have "earned" up to the time of withdrawal. Title IV funds that have been disbursed in excess of the earned amount must be returned by the college and/or the student to the federal government. R2T4 calculations are performed when a student completely withdraws officially or unofficially prior to completing a program.

The Financial Aid office can assist you in determining the best course of action if you must withdraw.

The R2T4 calculations usually results in one of the following scenarios:

- The student has earned Title IV funds that have not been disbursed, resulting in a Post-Withdraw Disbursement. The earned money will be ordered and applied to the student's account.
- Student has earned exactly what he/she has already received: When the calculation determines that the student has already been paid the exact amount earned, no further action is required.
- The calculation results in an overpayment of Title IV funds. The overpayment amount is returned to the Department of Education and the student is invoiced for any balance owed to the school. Failure to pay may result in further debt collection procedures.

R2T4 Process

A copy of the withdrawal form indicating the student's last date of attendance is received in the Financial Aid office. The Financial Aid office determines the amount of aid the student was disbursed or could have been disbursed, the R2T4 calculation amount is posted to the student's account. The funds are disbursed and/or returned, in accordance with federal guidelines. The R2T4 calculation worksheet is placed in the student's file.

Financial Aid Refund & Repayment Policy

Title IV Financial Aid funds and VA Educational Benefits are awarded under the assumption that a student will remain enrolled and have daily attendance for the period in which he or she has received funds (payment period). When a student is no longer attending and/or enrolled in a program, he/she may not be entitled to the Title IV Financial Aid and/or Veteran's Educational Benefits that were awarded/dispensed.

For Title IV funds, the return of funds is based on the premise that financial aid is earned in proportion to the length of time a student remains enrolled/in attendance. Title IV aid is returned on a pro-rated schedule until the student has reached greater than 60% attendance in his/her payment period. Once the student has attended greater than 60% of the payment period, he/she is considered to have earned all of the financial aid that was originally awarded and/or dispensed and, therefore, will not owe a return of Title IV funds.

For VA educational benefits, the return of funds is based on the student's last day of attendance. An overpayment of VA educational benefits will occur when a student is terminated prior to completion of the stated program hours. The student will be responsible for any resulting tuition balance. Students are eligible to return to school once the debt has been fully satisfied.

Early Program Completion

MTC may allow early program completion depending on program requirements. If a student completes the curriculum before he/she has completed the scheduled hours and leaves the program, the student will be a program completer if the credentials are attained.

The student's Title IV (Pell grant) award and/or VA educational benefits may be pro-rated creating an over-award which requires repayment to the school and/or the federal government and/or the Veterans Administration.

Veterans Education Benefits

The Bureau of State Approving Agency for veteran training has approved most of the certificate training programs offered at Marion Technical College. Veterans should check with the Veterans Administration (VA) State Certifying Official (SCO) in the Financial Aid office to apply for or reactivate their VA educational entitlements. The student must bring the completed required forms to the Financial Aid office with a copy of the veteran's Certificate of Eligibility and the DD-214. Marion Technical College participates in the Principle of Excellence program. Enrollment certification is completed in Enrollment Manager.

Students must attend classes regularly and attendance will be recorded and maintained by the school. Veterans must complete at least 90% of the scheduled program hours each month.

Veteran's Attendance Policy

- VA students are required to attend all classes.
- Monthly attendance records will be forwarded to the certifying official's office.
- Satisfactory Academic Progress (SAP) is monitored each payment period /or term. Students must maintain an overall 90% attendance and a minimum "C" average, unless otherwise specified, to remain in good standing
- Veterans not meeting Satisfactory Academic Progress will have their benefits terminated.
- Veterans must complete the program within 110% of the specified program time frame in clock hours.

Veterans' information may also be obtained at <http://www.gibill.va.gov>.

Veteran Student Withdraws

Veteran students that withdraw from a program after the drop add period and prior to completion may create an over-award which requires repayment to the school and/or the Veterans Administration. The student will be notified of the debt owed by mail if student is no longer on campus. Student may not return to class or re-enroll until the debt is paid in full.

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11. - Prevent the student's enrollment
- Assess a late penalty fee to the student
- Require the student to secure alternative or additional funding

- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution

To qualify for this provision, such students may be required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class
- Complete “New VA Student” form and sign the VA Attendance and Academic Policy
- Submit Military transcripts (not DD214), if applicable
- Provide official transcripts from any other post-secondary school that student has previously attended and complete Form #22-1995 Change of Program or Place of Training if applicable

VA Certificates of Enrollment will not be submitted until all required documentation has been received and evaluated and no sooner than 30 days prior to the start of classes.

A student applying for VA benefits is required to submit all transcripts, military and other, for evaluation of previous training credits. Transcripts must be received prior to the start of training or enrollment.

Tuition Installment Plan

Marion Technical College may offer payment arrangements, Tuition Installment Plan (TIP) for institutional costs (tuition, lab fees & miscellaneous fees) to students that meet certain eligibility criteria and who are not in default on student loans. The Financial Aid Director may amend the eligibility criteria, requirements, and payment schedule options on a case-by-case basis in certain circumstances. All payment plans are assessed a \$25.00 non-refundable service charge included in the first payment and collected at registration. The Financial Aid Office will provide a detailed payment schedule including payment amount and due date to the student at the time of registration.

For all veteran student the service charge of \$25.00 is waived. The 1st installment is delayed by 60 days to allow for VA student stipend payments time to process.

Other Forms of Financial Assistance

Vocational Rehabilitation, CareerSource of Citrus, Levy, and Marion Counties and third-party agencies also provide financial assistance for educational career training to help offset educational costs. Under Pub. L. 113-235 enacted December 16, 2014, 484(d) of the Higher Education Act of 1965, as amended (HEA), to allow a student who does not have a high school diploma (or its recognized equivalent), or who did not complete a secondary school education in a homeschool setting, to be eligible for Title IV, HEA student assistance (Title IV aid) through ability to benefit (ATB) alternatives, but only if the student is enrolled in an “eligible career pathway program” as defined in section 484(d)(2) of the HEA.

Fraud

There are severe penalties for falsification of financial aid documents or enrollment documents. Misrepresentation will be reported to proper authorities and may result in immediate dismissal. It is a federal offense to knowingly and willfully obtain student aid funds by means of making false statements to the government. You may have violated federal law. 20 U.S.C. section 1097. If you are convicted of this federal offense, you may have to pay a substantial fine, serve time in prison, or both.

Acceptable Use Policy and Guidelines for Network Access

The School Board of Marion County, FL (MCSB) believes network access is an exciting opportunity to expand learning for educators and students. The fundamental goal of the network is to provide Marion County students and educators with equal access to computing resources, which serve public education. Schools in the district are connected to the Internet and electronic mail. With this opportunity comes the responsibility for appropriate use.

Network Warning

With access to computers and people worldwide, there will be some material that may not be considered educational. The MCSB supports only those materials which will enhance the research and inquiry of the learner within the context of a school setting. However, on a global network it is impossible to control all materials, and an industrious user may discover inappropriate information. The MCSB cannot prevent the possibility that some users may access material that is not consistent with the school district's educational mission, goals, and policies.

General Policy & Guidelines

It is a general policy that the network will be used in a responsible, efficient, ethical and legal manner in accordance with the mission of MCSB. Users must acknowledge their understanding and agreement with the Acceptable Use Policy and Guidelines, which is a condition of receiving access. Failure to adhere to the Policy and Guidelines may result in access privileges being suspended or revoked. In addition, school disciplinary action and/or appropriate legal action may be taken.

Network Resources

Classroom resources will be expanded by making information and people from all over the world available to students, teachers, and others. It brings instant access to original source material, general information, data, images and computer software. It contacts relevant people when possible, bringing into the classroom experts from all over the world. Such access supports individual and group projects, collaboration, curriculum materials and idea sharing. As a hands-on tool, the network can motivate students.

GUIDELINE I

Acceptable uses of the network are activities which support teaching and learning. Users are encouraged to develop uses which meet their individual needs and which take advantage of the network's function.

GUIDELINE II

Unacceptable uses of the network include:

- Using the network to access materials that are considered inappropriate for educational purposes.
- Trying in any way to interfere with the computer systems within the MTC/MCSB or anywhere, in an effort to obtain private information, making the computer malfunction or destroying data.
- Violating federal and state law dealing with students' rights to privacy.
- Using profanity, obscenity or other language which may be offensive to another user.
- Reposting personal communications without the author's prior consent.
- Copying commercial software and other copyright protected material in violation of copyright law.
- Using the network for any illegal activity.
- Use of Proxy websites is prohibited.
- Students are not authorized to connect personally owned devices to the WIRED network at any time (Example: computers, printers, switches, hubs, router, wireless access points, and mini-devices).
- Sending unauthorized or unsolicited e-mail "spam" including the sending of "junk mail" or other advertising material.
- Circumventing user authentication or security of any host, network, or account.
 - Any form of harassment via e-mail, text messaging, instant messaging, telephone or paging, whether through language, frequency, or size of messages.

GUIDELINE III

- The District Technology Division reserves the right to limit the number of devices or manage the bandwidth available to any network at any time if it is in the best interest of the School Board.
- The School Board provides students the ability to connect personal devices to the "Student Wireless Network." The "STUDENT" Bring Your Own Device (BYOD) network is an unsecure, CIPA-compliant network provided for use by students who have an authorized user account assigned to them by the School Board. Students must authenticate using their assigned login credentials. Each school shall establish local procedures for use and availability of the student network. Student use of this network is primarily governed by the Student Technology Acceptable Use and Safety Policy 7540.03, MTC Student Handbook and local school guidelines.
- The owner of any personal device connecting to the School Board network bears all responsibility and assumes all risk for loss, damage or misuse of said device while on School Board property.
- The District Technology and Information Systems Division will not provide any technical or troubleshooting support for personally owned devices.

GUIDELINE IV

The person in whose name the account is issued is responsible at all times for its proper use and will not give his/her password to others.

GUIDELINE V

Users must avoid knowingly or inadvertently spreading computer viruses. They must not upload files from unknown sources. Deliberate attempts to degrade or disrupt system performance will be viewed as criminal activity by state and federal law.

GUIDELINE VI

Students are authorized to utilize the mariontc.edu domain for e-mail and collaboration tools for instructional learning. Never consider electronic communications to be completely private. Instances of misdirected mail, mail inadvertently forwarded to others and public posting of private correspondence by users have occurred from time to time.

Safety & Security

Maintaining a safe and secure environment is the primary priority of Marion Technical College. Marion Technical College believes all students have the right to attend school and school functions free of fear, harm, or harassment. The policies and procedures outlined in the Student Handbook have been adopted supporting this fundamental premise.

Please note that Marion Technical College cooperates with federal, state, and local law enforcement agencies in reporting, preventing, and responding to unlawful activities occurring on Marion Technical College campuses.

For Marion Technical College to implement its responsibilities fully, it is important that enrollment and emergency information be kept up to date in FOCUS. Each student is responsible for reporting emergency information changes to the school.

Video cameras have been installed throughout Marion Technical College campuses. Students may be filmed, and the videotapes may be used to determine violations of the Code of Student Conduct.

Crisis Protocol

Marion Technical College will implement the A.L.I.C.E. Protocol in the event of an active shooting. The A.L.I.C.E. Protocol stands for Alert, Lockdown, Inform, Counter and Evacuate. The A.L.I.C.E. Protocol is a multiple options-based response, which creates distance from the shooting event and/or the amount of time you can create to keep an intruder away until Law Enforcement arrives.

Providing a safe and secure environment for our students to learn is the top priority of Marion Technical College. Measures have been taken to ensure our staff and students are prepared for a crisis on one of our campuses. A comprehensive Crisis Management Plan was created to guide our staff through many situations. Fire drills, tornado drills, code red and code yellow drills are practiced at each site to ensure that routines and safety procedures are well established and familiar to all. In code yellow, all school doors will be locked, and regular classroom instruction continues behind the locked doors. In code red, all school doors are locked, and all students

and staff are advised to get on the floor away from doors and windows. Classroom instruction is discontinued.

STANDARDS OF CONDUCT

Expected Behavior

The District expects students to conduct themselves in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities, and the care of school facilities and equipment. Such behavior is essential in maintaining an environment that provides each student the opportunity to obtain a high-quality education in a uniform, safe, secure, efficient, and high-quality system of education. The standards for student behavior shall be set cooperatively through interaction among students, staff and community members, producing an atmosphere that encourages students to grow in self-discipline. The development of such an atmosphere requires respect for self and others, as well as for District and community property on the part of students, staff, and community members. School administrators, faculty, staff, and volunteers serve as role models for students and are expected to demonstrate appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment or bullying. Students are expected to conform to reasonable standards of socially acceptable behavior; respect the person, property, and rights of others; obey constituted authority; and respond to those who hold that authority.

A tattoo that is obscene or disruptive in the judgment of the school administration needs to be covered.
- Tops must be long enough to clearly overlap the belt line or stay tucked in during the course of normal movement throughout the day. Shirts falling below mid-thigh length will be tucked in. No bare-midriff shirts/blouses, sleepwear, muscle shirts, or tank tops will be worn.
- Garments will be secured at the waist. Shorts and skirts are permitted and will be mid-thigh length or longer.
- Students shall wear shoes for foot protection and for hygienic reasons while on school grounds. Bedroom slippers are not permitted. For safety reasons, shoes with wheels and/or skates may not be worn on the school campus.
- Jewelry and accessories shall be worn in a way that does not present a safety or health hazard or cause a disruption to the education process.
- Appropriateness and moderation in all things, concern for the health and safety of the students, and the avoidance of distractions to the educational process are the guiding principles of the student dress code. Styles and fads are constantly changing and cannot possibly be covered by specific rules and regulations. The task of evaluating what is proper in the way of dress and grooming is highly controversial, and opinion among people varies. MTC administrators will assume responsibility for ruling on specific items of clothing and general appearance for reasons of safety and health, or for the order, well-being, and general welfare of students.

The MCPS Board authorizes school administrators to employ appropriate disciplinary procedures to carry out and enforce this policy.

These are minimum standards that will be enforced at each school. Schools have the right to set higher standards based on administrative procedures. School uniforms may be adopted at individual schools.

Gangs & Gang Activity Prohibition

No student shall commit any act which furthers gangs or gang-related activities. A criminal street gang is a formal or informal organization or group that has as one of its primary activities the commission of criminal or delinquent acts and that consists of three or more persons who have a common name or common identifying signs or symbols and have one or more members that engage in a pattern of criminal street gang activity. Conduct prohibited by this policy includes but is not limited to the following:

1. Wearing, possessing, using, distributing, displaying, or selling any clothing, jewelry, emblems, badges, symbols, signs or other items which may be evidence of membership or affiliation in any gang.
2. Communicating either verbally or non-verbally (gestures, handshakes, slogans, drawings, etc.) to convey membership or affiliation in a gang.
3. Soliciting others for gang membership.
4. Tagging, or otherwise defacing school or personal property with gang or gang-related symbols or slogans.
5. Requiring payment of protection, insurance, or otherwise intimidating or threatening any person related to gang activity.
6. Inciting other students to intimidate or to act with physical violence upon any other person related to gang activity.

Search of Individual Student and /or Student Locker or Storage Area/Vehicle

Section 1006.09, Fla. Stat. (2021) search of student locker or storage areas

1. The legislature finds that the case law of this state provides that relaxed standards of search and seizure apply under the state Constitution to searches of students' effects by school officials, owing to the special relationship between students and school officials.
2. Accordingly, it is the purpose of this section to provide procedures by which school officials may search students' effects within the bounds of the case law established by the courts of this state.
3. Principal of a public school or a school employee designated by the principal, if she or he has reasonable suspicion that a prohibited or illegally possessed substance, item or object is contained within a student's locker or other storage area, may search the locker or storage area. The storage area may include but not be limited to electronic device, book bag, purse and/or vehicle (e.g., bicycles, scooters, etc.).

Marion Technical College shall have posted on each campus, in a place readily seen by students, a notice stating that a student's locker or other storage area is subject to search, upon reasonable suspicion, for prohibited or illegally possessed substances or objects.

1. This section shall not be construed to prohibit the use of metal detectors or specially trained animals in the course of a search authorized by a school official.
2. A principal/designee has reasonable suspicion to believe that a student is in possession of contraband, he shall request the student submit to a search of his or her person or his or her belongings. If the student refuses, the principal may call the appropriate law enforcement agency.

Refusal to be searched will be considered gross insubordination and/or other serious misconduct and may result in a suspension, or expulsion. Search of a student's person or intimate personal belongings shall be conducted by a person of the student's sex, in the presence of another staff member of the same sex. Strip searches of students by school staff are prohibited.

In light of the threat to school safety posed by the unauthorized presence on school campuses of firearms, controlled substances, and other prohibited or illegally possessed items, administrative searches of students and their lockers, backpacks, vehicles, personal effects, and storage areas, may be conducted for the purpose(s) of locating firearms, controlled substances, and other prohibited or illegally possessed items or substances. Administrative searches may be performed by school officials, School Resource Officers, and others aiding in the carrying out of an administrative search. Administrative searches may include the use of metal detectors and specially trained animals, including drug detecting dogs and firearm/gunpowder detecting dogs. The Superintendent/Designee will maintain procedures to determine who will participate in administrative searches, how the persons and/or places to be administratively searched will be selected, when administrative searches will be performed, and the methods by which administrative searches will be conducted. Prior to implementation, administrative search procedures will be reviewed by the School Board Attorney, who may consult with the legal advisor(s) for any law enforcement agency whose personnel may aid in performing an administrative search.

Student ID Badge

All MTC students are required to wear the MTC Student ID badge at all times while on campus. The MTC student ID badge must be:

- Visibly worn above the waist;
- Showing the student's identification information and;
- Worn at all times while on campus.

If a badge is lost or stolen, the student should notify his/her instructor to arrange for a replacement (\$5 replacement fee).

Threat or False Report of Any Destructive Device

Any student who is determined to have made a threat or false report of destructive device, as defined by §§ 790.162 and 790.163, Fla. Stats. (2021) respectively, involving school or school personnel's property, school transportation, or a school-sponsored activity will be withdrawn from Marion Technical College and referred for criminal prosecution.

Tobacco Products

Marion Technical College is committed to providing students, staff, and visitors with a tobacco-free environment. The negative health effects of tobacco use for both users and nonusers, particularly in connection with second hand smoke, are well established. According to School Board Policy 7434, “use of tobacco” shall mean all users of tobacco, including cigars, cigarettes, pipe tobacco, smokeless tobacco, chewing tobacco, snuff, or any other matter or substances that contain tobacco, and the possession of papers used to roll cigarettes.

Administrators, staff, students, and visitors are prohibited from using, displaying, and selling tobacco products and related devices on school grounds and at school events, at all times. This includes but is not limited to, electronic vapor products of any kind.

Students shall not promote tobacco products and/or brands through clothing, accessories, or other garments, or other items with pictures, logos, phrases, decals, patches, emblems, or words printed on them. Determination of items that promote tobacco are considered obscene or disruptive will be left to the judgment of the school administration.

Further, it is unlawful for any person under age 21 to knowingly possess any tobacco product or to misrepresent age to acquire or purchase any tobacco product.

Students found to be in violation of Board Tobacco Policy may be asked to vacate Board-owned property, at the discretion of school administration.

THE UNLAWFUL USE AND/OR POSSESSION OF TOBACCO PRODUCTS IS WRONG AND HARMFUL. TOBACCO COUNSELING AND CESSATION RESOURCES ARE AVAILABLE THROUGH THE MTC COUNSELOR.

Violence (Overt Threats to Commit Harm)

Marion Technical College must maintain a policy regarding all threats to commit violence or harm. Even threats made in jest or in exaggeration must be treated as serious threats that may subject the student to suspension or expulsion. When a student makes a threat of violence, the school’s team will assess the situation using the Comprehensive School Threat Assessment Guidelines (CSTAG) protocol. If the protocol indicates a substantive threat, district threat assessment procedures will be followed to ensure the students’ well-being. Additionally, appropriate disciplinary actions will be taken.

Weapons & Firearms

According to § 790.115(2)(a), Fla. Stat. (2021), students will not possess any firearm, electric weapon or device, destructive device, or other weapon as defined in § 790.001(13), Fla. Stat. (2021), including a razor blade or box cutter, except as authorized in support of school-sanctioned activities, at a school-sponsored event or on the property of any school.

Notwithstanding the foregoing, pursuant to § 790.115(2)(a), Fla. Stat. (2021), a person may carry a firearm: (i) In a case to a firearms program, class or function which has been approved in advance by the principal or chief administrative officer of the school as a program or class to which firearms could be carried; (ii) In a case to a career center having a firearms training range; or (iii) In a vehicle pursuant to § 790.25(5), Fla. Stat. (2021); except that school districts may adopt written and published policies that waive the exception in this subparagraph for purposes of student and campus parking privileges. The Marion County School Board does not

permit students to have firearms in vehicles parked on campus. The Marion County School Board has “Zero Tolerance” for guns and other weapons. Any MTC student who is determined to have brought a firearm or weapon as defined in § 790.001(13), Fla. Stat. (2021) to school, to any school function, or possessing a firearm at school, will be withdrawn pursuant to § 1006.13, Fla. Stat. (2021).

Weapons – Amnesty Clause

When a student knows or should have known that he/she has unknowingly brought a weapon other than firearms or ammunition on campus, he/she must immediately notify an administrator, or teacher. The weapon will be turned over to school personnel. The student may not be disciplined by the school if he/she follows this procedure. Amnesty cannot be claimed once the school has initiated a search which would include the student’s person, possessions, locker, and/or vehicle.

Drugs/Alcohol & Diversion

The student shall not knowingly possess, use, transmit or be under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, any other controlled or counterfeit substance defined in § 893.03, Fla. Stat., or substitute for such, alcoholic beverage, inhalant or intoxicant, or over the counter drugs of any kind, on the school grounds either before, during or after school hours or off the school grounds at a school activity, function, or event. Also, a student shall not possess, have under his/her control, sell or deliver any device, or contrivance, instrument or paraphernalia containing the substance or substances described in this paragraph or any residue of such substance or devices intended for use or used in injecting, inhaling/inhalant/huffing, smoking, administering, or using any of the foregoing prescribed drugs, narcotics or stimulants. Use of a drug authorized by a medical prescription from a registered physician for a specific student shall not be considered a violation of this rule. MTC students in violation of this rule will be withdrawn from the school. THE USE OF ILLICIT DRUGS AND THE UNLAWFUL POSSESSION AND USE OF ALCOHOL IS WRONG AND HARMFUL. INFORMATION ABOUT DRUG AND ALCOHOL COUNSELING IS AVAILABLE TO STUDENTS THROUGH THE MTC COUNSELOR. STUDENTS SUSPECTED OF BEING UNDER THE INFLUENCE OF ALCOHOL OR DRUGS MAY BE TESTED. A TEST REFUSAL, OR FAILURE TO COMPLETE THE TEST WITHIN 24 HOURS, IS CONSIDERED A POSITIVE TEST RESULT.

CONFIDENTIALITY OF STUDENT RECORDS

Student records are confidential and shall be accessible only to professional staff, the parents of students who are under the age of 18, eligible students 18 years of age or older, and other individuals and agencies as set forth by the Family Educational Rights and Privacy Act (FERPA). Students must fill out release of records form to designate individuals that information may be shared.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. The following is excerpted from the U.S. Department of Education website:

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students." Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies. Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information. Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31): school officials with legitimate educational interest; other schools to which a student is transferring; specified officials for audit or evaluation purposes; appropriate parties in connection with financial aid to a student; organizations conducting certain studies for or on behalf of the school; accrediting organizations; to comply with a judicial order or lawfully issued subpoena; appropriate officials in cases of health and safety emergencies; and state and local authorities, within a juvenile justice system, pursuant to specific state law.

For additional information, call 1-800-872-5327. Individuals who use TDD may call 1-800-437-0833. Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-8520

Information to Which a Student May Not Have Access

A student may not have access to records that contain information on more than one student. The requesting student may inspect, review or be informed of only the specific information about his or her record. A student may not have access to records that contain financial information of his or her parents.

Directory Information

FERPA allows every institution of higher education to disclose "directory information" without written consent of the student. Directory information includes the following items:

- Name
- Address

- Phone number and email address
- Dates of attendance
- Degrees or certificates awarded
- Enrollment status
- Major field of study

However, every student has the right to ask his or her institution of higher education NOT to disclose directory information. A request not to release directory information must be submitted in writing to the principal or his/her designee on or before the first day of any school year, or within three weeks of the date of enrollment of a student after the start of the school year. In the absence of written notification to restrict the release of directory information, the school and the Board of Education will assume that neither a parent of a student nor an eligible student objects to the release of the designated directory information. Under provisions of the National Defense Authorization Act and The Elementary and Secondary Education Act (No Child Left Behind), directory information may also be released to law enforcement agencies, other governmental agencies (U.S. Department of Justice, branches of armed forces, etc.) and to postsecondary programs to inform students of educational programs available to them. However, directory information shall not be released for commercial use, including among others, mailing lists for solicitation purposes.

School Officials with a Legitimate Educational Interest

MTC may disclose student record information to school officials with a legitimate educational interest. A school official is a person employed by MTC or MCPS as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Marion County School Board or a person or company with whom MTC has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Subpoena of Student Records

MTC must comply with subpoenas from a court of competent jurisdiction for the production of student records. The production of these records must be accomplished in a lawful and timely manner. If a student or parent of a dependent student objects to the release of subpoenaed records, an objection to a subpoena for non-party production must be filed or a protective order must be obtained from a court of competent jurisdiction. After school receipt of proper notification, the subpoenaed records will be produced as demanded on the 10th working day following the service of the subpoena if an injunction is not granted.

STUDENT COMPLAINT & GRIEVANCE PROCEDURES

All students have the right to appeal administrative decisions made by MTC faculty & staff. Every attempt should be made to rectify the perceived grievance by a meeting among interested parties. Prior to initiating the grievance process outlined below, the student must first request

in writing a meeting with his or her class instructor and the Program Manager or Specialist. If the student feels the situation is not rectified at that level, the student may pursue an appeal by following the grievance process in the order listed below. This procedure is provided in an effort to comply to the Title IV of the Civil Rights Act of 1964, Title IX of Educational Amendments of 1976, Section 504, and the Americans with Disabilities Act (ADA) of 1990.

Failure on the part of a student to observe the time limits for initiation and/or follow-up on a complaint or grievance will automatically result in the complaint or grievance being considered abandoned.

Level One:

A written statement is delivered to the department administrator within three (3) working days of the perceived incident. Email is acceptable. The statement must fully describe the circumstances giving rise to the perceived grievance and a description of the student's efforts made to resolve the grievance. A decision regarding this appeal will be made within three (3) working days of receiving the appeal, exclusive of weekends or holidays.

Level Two:

If the student desires to appeal the decision made at Level One, the student must provide a written statement to the MTC Assistant Principal within three (3) working days of the decision at Level One. The statement must fully describe the circumstances giving rise to the perceived grievance and a description of the efforts made to resolve the grievance at the previous level. A decision regarding this appeal will be made within three (3) working days of receiving the appeal, exclusive of weekends or holidays.

Level Three:

If the student desires to appeal the decision made at Level Two, the student must present the perceived grievance within three (3) working days to the MTC Principal. The student must present a written statement to the Principal describing fully the circumstances giving rise to the perceived grievance and a description of the efforts made to resolve the grievance at the previous levels. The MTC Principal will review the statement of grievance and will discuss the grievance with all interested parties and decide as to whether the previous decisions stand or will be revised. All parties have the right to a face-to-face meeting with the MTC Principal. Every effort will be made to resolve this issue within two (2) weeks.

The Superintendent's designee for coordinating all student grievances is the Senior Executive Director of Secondary Curriculum, Anne Hembrook and may be reached by phone at 352- 236-0503 on school days.

If the grievance is not settled at the district level, the student may appeal to the accreditation agency (COE). Council on Occupational Education, 7840 Roswell Road, Building 300, Suite #325 Atlanta, Georgia 30350 (770) 396-3898.
